

About:

Housing Partnership Development Corporation

For more than 24 years, the Housing Partnership has been a leader in leveraging public and private sector support to create more than 18,000 units of new affordable housing. Our homes have transformed vacant, trash-strewn lots into vibrant new communities. Our mission is to create affordable homes and revitalize neighborhoods through community development promoted by a dynamic partnership involving the public and private sectors.

Our partners are public agencies — the NYC Department of Housing Preservation and Development and the NYS Affordable Housing Corporation — as well as banks, builders, and community groups who share our vision and goals.

The Home Maintenance Training and Repair Program has been developed to assist home owners with after-purchase maintenance of their home investment.

About:

Margert Community Corporation

Margert Community Corporation was founded in 1980 by the R.C. parishes of St. Mary, Star of the Sea, in Far Rockaway, and St. Gertrude's, in Edgemere.

The purpose of the corporation is to enable these parishes to serve their communities in the areas of housing, senior citizens, and youth concerns.

The focus of our work is to assist poor and lower income individuals and families, and in this way to bring good news, in a practical manner, to the poor.

Currently we are involved in a study and plan that will hopefully result in more decent and affordable housing in our community.

Now through our joint venture with the Housing Partnership we are pleased to introduce the Home Maintenance Training and Repair Program. All homeowners and their families will benefit from this "hands on" workshop.
